QuickScan™ Pro and ISIS®
Single Driver Price Sheet

QuickScan Pro Pricing

QuickScan™ Pro is an effective, easy-to-use solution for high-performance image scanning and image processing in Microsoft Windows environments. QuickScan Pro provides all the capabilities necessary to scan, view, print, annotate, clean and store images. QuickScan Pro is available for Windows 98, Me, 2000, and XP.

QuickScan Pro supports all features of your scanner through an ISIS® driver from Captiva, and also supports TWAIN scanners that have no ISIS driver through a driver interface layer[1]. Pricing is based on the Level of the scanner driver, which in turn is based on the scanner's product capabilities including parameters such as page rate, paper handling, paper sizes, etc. Please contact your QuickScan Pro Account Executive or visit www.scannerdrivers.com to determine the scanner level you will be using. QuickScan Pro pricing includes the requisite drivers for Level 1, 2 and 3 scanners. QuickScan Pro includes 1 year of free support[4]. This includes "helpdesk" support via phone or email. Support does not include version upgrades. Version upgrades must be purchased separately. For a fast and easy purchase, buy online at www.pixtran.com.

QUICKSCAN PRO LEVEL	LIST PRICE ($US)/ SCANNER	UPGRADE FROM VERSION 3.5[3]	UPGRADE FROM VERSION 3.0[3]
LEVEL 0 (VIEW ONLY)	$295	$55	$95
LEVEL 1	$495	$145	$195
LEVEL 2	$995	$195	$345
LEVEL 3	$1,695	$345	$595
LEVEL P [2]	$3,095	$595	$945
PDF 417 ADD ON	$350	$70	$115

ISIS® Single Driver End User Pricing

Level 1, 2 and 3 drivers have 15 days support. Support can be extended to one full year for an additional $100 per scanner if purchased at time of initial driver purchase. If support is purchased out of a valid support period, the cost is $150/scanner. If support is purchased, it must be purchased for all drivers owned. Production drivers come with a year of support that can be renewed for 20% each subsequent year (as long as all production drivers at the site are renewed at the same time).[5]

SCANNER LEVEL	LIST PRICE
LEVEL 1	$100/scanner
LEVEL 2	$250/scanner
LEVEL 3	$500/scanner
PRODUCTION LEVEL	$5,000/scanner

Notes:

[1] QuickScan Pro TWAIN support can only provide the scanner feature set provided by the TWAIN data source that comes with the scanner.

[2] This QuickScan Pro price assumes the ISIS driver is coming bundled with the scanner. If you have a Production Scanner and the driver is not included with the scanner, you would need to also buy the Production driver for that scanner. Production Level QuickScan Pro is not sold online. Please contact a Sales Representative to purchase over the phone.

[3] QuickScan Pro version upgrades are available for a fee. The price is determined by number of versions subsequent to the current release. Service Packs and maintenance releases are not considered version upgrades. If more than two major versions behind, a new product purchase is required. Version upgrades include one year of support from date of purchase.

[4] Support renewals can be purchased for $70. Support renewals do not include version upgrades. Support is only valid for the version of QuickScan Pro which is the most current at the purchase date of the support renewal.

[5] If Production Level driver support is purchase outside of the valid support term, the cost is 35% of the list price.

Prices and terms are subject to change without notice.
